INVESTIGATORS: M. STEPHANY / E. BERA KOVICH
INCIDENT: Officer Involved Shooting, Los Alamitos Police Department
LOCATION: [REDACTED]
DATE/TIME: Wednesday 11-9-94 at 0608 hours
SUSPECT: BROWN, Michael Arnell DOB [REDACTED] (deceased)
SHOOTER: Officer M. BALSIS, L.A.P.D.

SUMMARY:

On 11-9-94, at 3:46 A.M., Officers Charles Kelley and Greg Torres of the Los Alamitos Police Department (LAPD) were dispatched to [REDACTED] Los Alamitos, reference a call to assist the paramedics with a subject who was withdrawing from drugs.

[REDACTED] (Brown's mother) was the informant. Michael Brown was jittery, but cooperative with the officers. Brown did not seem to be under the influence, but did appear to be going through drug withdrawals. The paramedics arrived and [REDACTED] told Captain James Foley of the Orange County Fire Department that her son was withdrawing from methamphetamine and needed medication to help calm him. Captain Foley described Michael Brown as being "antsy, but cooperative". Brown was transported to Los Alamitos Medical Center so that he could be treated by a physician, and be evaluated by a Psychological Assessment Team. Officers KELLY and TORRES cleared the call at 4:06 A.M.

At Los Alamitos Medical Center, Dr. Blush and [REDACTED] decided that admission to a voluntary program was not an option for Brown. Dr. Blush

recommended having a psychologist come in to evaluate Brown for involuntary placement in a psychiatric facility. Dr. Blush then called Dr. Gary Freedman-Harvey of the Psychological Assessment Team.

Prior to Dr. Freedman-Harvey's arrival, Brown became agitated and a control problem. The hospital summoned Los Alamitos Police Department for assistance.

At 5:03 A.M. Officers Brendan Hayes and Michael Balsis arrived to the hospital. Brown was now being cooperative and laying back on the gurney.

Dr. Freedman-Harvey arrived at about 5:20 A.M. and began his psychiatric evaluation. Officers Hayes and Balsis left the hospital at 5:27 A.M.

At 5:45 A.M. Dr. Freedman-Harvey completed the evaluation. Nurse Richard Kaplan then administered the drug "Haldol" to him. The drug is a tranquilizer.

At 5:55 A.M. Brown became violent and got up off the gurney and struck his mother in the face with his fist. He then exited the hospital by charging through a closed sliding glass door, knocking the door completely off the rail. Nurse Chris Klingenpeel called Los Alamitos P.D. and requested their assistance in finding and returning Brown.

Officers Hayes and Balsis were dispatched back to the hospital at 5:57 A.M. Officer Hayes arrived first and was directed by nurse Patricia Patrella to the southwest corner of Cherry and Catalina where he found Brown walking in the parking lot of Trend Offset Printing.

Officer Hayes told Brown that he wanted to talk to him. Brown walked up to him and complied with the direction given by the Officer to spread his legs and place his hands behind his back. Officer Hayes then approached Brown from the

rear and attempted to apply a wrist lock control hold on Brown's left wrist in preparation for handcuffing him. Brown spun around and punched him in the left eye with his right fist.

Brown then ran south on Cherry, then west on Florista. Officer Hayes caught up with Brown in an alley way behind the houses on the east side of Reagan between Florista and Catalina. Brown took a combative stance and was told to turn around and sit on the ground, that he was under arrest. Brown refused to comply. Officer Hayes sprayed him in the face with pepper spray from a distance of from five to seven feet. The pepper spray had no effect. Brown then said "take me Jesus, take me". Brown then scaled a chain link fence on the west side of the alley and fell into the backyard at [REDACTED]. Officer Hayes applied another dose of pepper spray through the fence. Once again it had no effect, and Brown ran westbound through the backyard toward the house.

The Officer's vision was impaired by the injury to his left eye and by spray back from his pepper spray applications. He was unable to see Brown's escape route , but he could hear him banging against the side of the residence.

Officer Balsis seeing Brown jump the fence at [REDACTED] drove west on Catalina and then south on Reagan. Officer Hayes still on foot, ran south to Florista, then north on Reagan. Both Officers temporarily lost contact with Brown as they circled toward Reagan from opposite directions.

During this interim period Brown attempted to kick in the front door at [REDACTED]. [REDACTED] He then crossed the street to [REDACTED] and tried to pry the screen off the front window.

Brown then crossed back to the east side of Reagan, where Officer Balsis made contact with him in front of [REDACTED].

Officer Balsis also told Brown to get on the ground, that he was under arrest. Brown started to go to the ground then lunged and struck Balsis on the chin with his right fist. Balsis then pepper sprayed Brown in the face. Brown then ran to the front of the residence [REDACTED] and smashed his head through the front window screen breaking the glass in the window. He then went to the front door and beat and kicked on it. Balsis again sprayed him in the face with pepper spray. Still no effect.

Brown then ran west bound across the street, down a driveway and into the rear yard of [REDACTED]. Officer BALSIS chased Brown on foot. Brown broke out a window at the rear of the house and then started to kick and bang on the rear door. Officer Balsis sprayed him again with his pepper spray. Brown flew into a rage. He smashed open the rear door and ran into the house. Officer Balsis thought that Brown would attempt to elude him by exiting the front door, so he ran toward the front yard. Officer Balsis could hear people inside of the house scream and call for help.

At the front of the house he met Officer Wolcott, Sgt. Travis, and Officer Hayes. Officers BALSIS and Wolcott returned to the rear of the house while Sgt. Travis and Officer Hayes stayed in the front yard.

Brown meanwhile remained inside the house. There he assaulted one of the residents, [REDACTED] by punching [REDACTED] in the face and breaking [REDACTED] nose. [REDACTED] and [REDACTED] barricaded themselves in the northeast bedroom.

Officers BALSIS and Wolcott then saw Brown try to exit the rear door of the house. Brown saw the Officers and ran back inside. Officer Balsis then heard the rustling of utensils in the kitchen.

The Officers followed behind him and saw that kitchen utensils had been scattered on the floor of the kitchen and the living room. The Officers thought that there was a good possibility that Brown may have armed himself with a knife. They stopped to open the front door for Sgt. Travis and Officer Hayes when they reached the living room. Officer Hayes then entered the northeast bedroom and found all [REDACTED] family members inside. The family told them that Brown was in the master bathroom.

Officer BALSIS walked west bound down the hallway toward the rear of the house. He located the bathroom door and saw it move. Officer Hayes then used his baton to push the door open. Officers Balsis and Hayes saw Brown seated on the floor of the bathroom with a blade type weapon in his right hand.

Both Officer Balsis and Hayes told Brown to put down the weapon, that he was under arrest. Officer Balsis took up a position in the northwest bedroom and Officer Hayes took up a position in the hallway on the opposite side of the bathroom door. Brown got to his feet and stood in the bathroom doorway. He continued to hold the weapon in his right hand. Officer Hayes saw what appeared to be a number of small stab wounds to Brown's abdominal area. Both Officers repeatedly instructed him to drop the weapon.

Brown then exited the bathroom and rapidly advanced toward Officer Balsis holding the blade type weapon over his head with the blade pointed at Officer Balsis. As he advanced toward Balsis he said "go ahead, shoot me, I want to die". Both Officer Balsis and Officer Hayes continued to tell Brown to drop the weapon.

Brown instead raised the blade in a higher and more menacing manner and hastened his advance toward Officer Balsis. Officer Balsis backed into the bedroom away from Brown. Brown came to within approximately five to eight feet of his position. Officer Balsis, fearing for his life, fired two rounds from his .45

caliber semi-automatic service weapon. The rounds struck Brown in the chest and upper right arm. Brown fell to the floor. The officers removed the object from Brown's right hand. It was a pair of scissors. They then handcuffed him.

Paramedics were summoned at 6:08 A.M., moments after the shooting. At 6:13 A.M. Orange County Fire Department Paramedics including Captain James Foley arrived. Captain Foley stated that Michael Brown was dead upon their arrival at the scene.

Brown has no criminal history.

[REDACTED] in the past has worked as a psych nurse. She worked with people who had a substance abuse addiction. She said at the age of 10, Michael was seeing a therapist and being treated for "anger". Michael had a severe problem of controlling his anger toward others.

[REDACTED] said Michael started out by smoking Marijuana, and then began using methamphetamines. Right before this incident, [REDACTED] described Michael as being delusional. He was also hallucinating and appeared to be withdrawing from drugs.

Uh, he ran away from the hospital, our officers uh, got into a foot pursuit in an alley uh, chased him into a backyard I guess. Uh, and he broke into a house uh, at that point they followed him inside, uh, and tried to set up a perimeter. Uh, after that the only thing I know is that we got involved in some sort of shooting and I don't really have alot more details than that. So we got broken windows and I guess blood and all sorts of things around.

FEM-DISPATCHER: Um, is he dead?

DRAKE-DISPATCHER: No.

FEM-DISPATCHER: Is he gonna die?

DRAKE-DISPATCHER: Uh, I don't think so. It sounds to me like they, they've called paramedics and it sounds to me like it's all gonna be uh, pretty close to not dead. But we have an injured officer also.

FEM-DISPATCHER: Oh really.

DRAKE-DISPATCHER: Yeah.

FEM-DISPATCHER: Did he get shot?

DRAKE-DISPATCHER: I'm not certain about that either, we just know that he's been injured. That's all that my Watch Commander had told me at this time.

OFFENSE: Officer Involved Shooting	LOCATION: [REDACTED]	
VICTIM: Brown, Michael Arnell	DATE: Wed 11-9-94	GRID: 796 J-2

DETAILS OF INCIDENT:

On 11-9-94 at 0346 hours Officers Charles Keiley and Greg Torres of the Los Alamitos Police Department were dispatched to [REDACTED] Los Alamitos reference a call to assist the paramedics with a subject who was withdrawing from drugs. The Officers arrived prior to the paramedics. Upon their arrival they found that the subject, Michael Brown, was jittery, but cooperative. Brown's mother, [REDACTED] told the Officers that she had summoned the paramedics only. They explained that their presence there was required to assist the paramedics who were also responding. The paramedics arrived and Chole Tucker told Captain James Foley of the Orange County Fire Department that her son was withdrawing from methamphetamine and needed medication to help calm him. Captain Foley described Michael Brown as being "antsy, but cooperative". The Paramedics agreed to have Brown transported to Los Alamitos Medical Center so that he could be treated by a physician and be evaluated by a Psychological Assessment Team. Officers Kelley and Torres said that Brown did not seem to be under the influence, but did appear to be going through drug withdrawals. According to them, Brown was cooperative with the paramedics. The Officers cleared the call at 0406 hours when the paramedics had Medix Ambulance transport Brown.

Dr. Thomas Blush of the Los Alamitos Medical Center stated that Michael Brown arrived at his facility by ambulance at a little after 0400 hours and that [REDACTED] arrived soon afterward. She told Dr. Blush about her son's incoherent behavior. Dr. Blush and [REDACTED] decided that admission to a voluntary program was not an option. Dr. Blush recommended having a psychologist come in to evaluate Brown for involuntary placement in a psychiatric facility. Dr. Blush then called Dr. Gary Freedman-Harvey of the

Psychological Assessment Team.

Prior to Dr. Freedman-Harvey's arrival, Dr. Blush said that Brown became agitated and a control problem. He had the hospital summon Los Alamitos Police Department for assistance. Los Alamitos P. D. received the call at 0503 hours and dispatched Officers Brendan Hayes and Michael Balsis. Dr Blush said that the Officers arrived several minutes after his request, but that by that time Brown was being cooperative and laying back on the gurney. Dr. Freedman-Harvey arrived at about 0520 hours and began his psychiatric evaluation. The officers left the hospital at 0527 hours.

At approximately 0545 hours, after Dr. Freedman-Harvey evaluated Brown, Nurse Richard Kaplan administered the drug Haldol to him. The drug was described by Dr. Blush as being a major tranquilizer type of medication. At approximately 0555 hours Brown became violent; got up off the gurney and struck his mother in the face with his fist. He then exited the hospital by charging through a closed sliding glass door knocking it off its ramp. Nurse Chris Kl ingenpeel called Los Alamitos Police Department and requested their assistance in finding and returning Brown.

Officers Hayes and Balsis were dispatched back to the hospital at 0557 hours. Officer Hayes arrived first and was directed by nurse Patricia Patrella to the southeast corner of Cherry and Catalina where he found Brown walking in the parking lot of Trend Offset Printing. Officer Hayes told Brown that he wanted to talk to him. Brown walked up to him and complied with the direction given by the Officer to spread his legs and place his hands behind his back. Officer Hayes then approached Brown from the rear and attempted to apply a wrist lock control hold on Brown's left wrist in preparation for handcuffing him. Brown spun around and punched him in the left eye with his right fist. Officer Hayes said that because Brown had been cooperating that he had applied no tension to the left wrist when Brown turned and struck him. Officer Hayes said that after feeling the impact of the blow that he shoved Brown away. Brown ran south on Cherry then west on Florista with Officer Hayes in close foot pursuit. Officer Hayes caught up with Brown in an alley way behind the houses on the east side of Reagan between Florista and Catalina. Brown took a combative stance and Officer Hayes told him to turn around

and sit on the ground, that he was under arrest. Brown refused to comply. Officer Hayes sprayed him in the face with pepper spray from a distance of from five to seven feet. Brown just looked at the Officer and said "take me Jesus, take me". Brown then scaled a chain link fence on the west side of the alley and fell into the backyard of the [REDACTED] residence at [REDACTED]. Officer Hayes applied another dose of pepper spray through the fence. Once again it had no effect and Brown ran westbound through the backyard toward the house. The Officer's vision was impaired by the injury to his left eye and by spray back from his pepper spray applications. He was unable to see Brown's escape route, but he could hear him bang against the side of the [REDACTED] residence.

Officer Balsis, driving his unit, had followed Officer Hayes' foot pursuit of Brown into the alley. After seeing Brown jump the fence into the [REDACTED] yard, he drove north to Catalina and then south on [REDACTED]. Officer Hayes who was still on foot, ran south to Florista then west to [REDACTED]. Both Officers temporarily lost contact with Brown as they circled toward [REDACTED] from opposite directions. During this interim period Brown attempted to kick in the front door of the [REDACTED] residence. He then crossed the street to the [REDACTED] residence at [REDACTED] and tried to pry the screen off the front window. He then crossed back to the east side of [REDACTED] where Officer Balsis made contact with him in front of the [REDACTED] residence at [REDACTED]. Officer Balsis told Brown to get on the ground, that he was under arrest. Brown started to go to the ground then lunged at the Officer and struck him with his right fist on the chin. Officer Balsis pepper sprayed Brown's face. Brown ran to the front of the [REDACTED] residence and smashed his head through a front window screen breaking the glass in the window. He then went to the front door and beat on it and kicked it. Officer Balsis sprayed him in the face again with pepper spray. It had no effect. Brown then ran west bound across the street, down a driveway and into the rear yard of the [REDACTED] residence at [REDACTED]. Officer Balsis chased Brown on foot. Brown broke out a window at the rear of the [REDACTED] house and then started to kick and bang on the rear door. Officer Balsis sprayed him again with his pepper spray. Brown flew into a rage. He broke open the rear door and ran into the house. Officer Balsis thought that Brown would attempt to elude him by exiting the front door so he ran toward the front yard. He could hear people inside of the house scream and call for help. At the front of the house he met Officer Wolcott, Sgt.

Travis, and Officer Hayes. Officers Balsas and Wolcott returned to the rear of the house while Sgt. Travis and Officer Hayes stayed in the front yard. Brown meanwhile remained inside the house. There he assaulted one of the residents, [REDACTED] by punching [REDACTED] in the face and breaking [REDACTED] nose. [REDACTED]

[REDACTED] barricaded themselves in the northeast (front) bedroom. Officers Balsas and Wolcott saw Brown try to exit the rear door of the house by attempting to hurl his body through the top part of the closed door. Brown saw the Officers and ran back inside. Officer Balsis heard the rustling of utensils in the kitchen. They followed behind him and saw that kitchen utensils had been scattered on the floor of the kitchen and the living room. The Officers thought that there was a good possibility that Brown may have armed himself with a knife. They stopped to open the front door for Sgt. Travis and Officer Hayes when they reached the living room. Officer Hayes then entered the northeast bedroom and found all [REDACTED] family members inside. The family told them that Brown was in the bathroom on the north side of the residence. Officer Balsas walked west bound down the hallway toward the rear of the house. He found the bathroom door to be about half way down the hall. He saw the door move slightly. Officer Hayes used his baton to push the door open. The Officers saw Brown seated on the floor of the bathroom with a blade type weapon in his right hand. Both Officer Balsis and Officer Hayes told Brown to put down the knife, that he was under arrest. Officer Balsis took up a position in the northwest bedroom and Officer Hayes took up a position in the hallway on the opposite side of the bathroom door. Brown got to his feet and stood in the bathroom doorway. He continued to hold the weapon in his right hand. Both Officers repeatedly instructed him to drop the knife. Instead, he exited the bathroom and rapidly advanced toward Officer Balsis holding the blade type weapon over his head with the blade pointed at Officer Balsis. As he advanced toward Officer Balsis he said "go ahead, shoot me, I want to die". Both Officer Balsis and Officer Hayes continued to tell Brown to "drop the knife". Instead he raised the blade in a higher and more menacing manner and hastened his advance toward Officer Balsis. Officer Balsis backed into the room away from his assailant. He was "cornered" with no avenue of escape. Brown came to within approximately five to eight feet of his position. Officer Balsis, fearing for his life, fired two rounds from his .45 caliber semi-automatic service weapon. The rounds struck Brown in the chest and upper right arm. Brown fell to the floor. The officers removed the object from Brown's right hand. It was a pair of

scissors. They then handcuffed him. Paramedics were summoned at 0608 hours, moments after the shooting. At 0613 hours Orange County Fire Department Paramedics including Captain James Foley arrived. Captain Foley stated that Michael Brown was dead upon their arrival at the scene.

Dr. Joseph Halka performed the post mortem examination at the Orange County Forensic Science Center on 11-10-94 at 1000 hours. He determined the cause of death to be exsanguination due to a gunshot wound to the chest which penetrated the heart, both lungs, and the diaphragm.

11/9/94, at approximately 0545 hours [REDACTED] left for work. [REDACTED] did not see or hear anything unusual prior to leaving or as [REDACTED] drove out of the neighborhood. [REDACTED] were still in the residence when [REDACTED] left. [REDACTED] said [REDACTED] was aware that an incident had occurred across the street from [REDACTED] residence and that a window in the front of [REDACTED] residence had been broken by an unknown subject. [REDACTED] said [REDACTED] would have [REDACTED] contact me for an interview.

[REDACTED]
Resident: [REDACTED]

Phone: [REDACTED]

At approximately 1014 hours, Inv. Russell and I conducted a taped interview with [REDACTED] in the garage of [REDACTED] residence. The following is a synopsis of the interview:

[REDACTED] told us [REDACTED] is not sure exactly what time it was, maybe 0600 hours, that [REDACTED] was awakened by a "big bang" noise, which sounded to [REDACTED] like an explosion. [REDACTED] got out of bed and looked out [REDACTED] front window to [REDACTED]. Not seeing anything unusual, [REDACTED] walked to the back of [REDACTED] house and looked out the back door. [REDACTED] but [REDACTED] did not see anything in the back yard.

[REDACTED] walked back to the front window, and that is when [REDACTED] saw one police car parked in the street in front of [REDACTED] house, facing toward [REDACTED]. As [REDACTED] watched, several other police cars arrived. [REDACTED] could hear voices saying, "where is he", "which way did he go". [REDACTED] said the voices sounded like they were coming from the area of the driveway, but [REDACTED] did not see anyone. [REDACTED] said [REDACTED] walked out of [REDACTED] house to the street. [REDACTED] said [REDACTED] thought it was "funny" that none of [REDACTED] neighbors were outside, because everyone usually comes outside when something

happens in the neighborhood. [REDACTED] did see a light on in the upstairs apartment across the street.

By this time, [REDACTED] was out of bed and dressed. [REDACTED] normal routine in the morning is to take a walk up the street and smoke a cigarette, which [REDACTED] did. [REDACTED] remained in the house until [REDACTED] heard [REDACTED]. When [REDACTED] looked outside, [REDACTED] saw that [REDACTED] who recently suffered a stroke, had fallen. [REDACTED] went out to help [REDACTED] stand up, and was assisted by [REDACTED] who lives [REDACTED] of [REDACTED].

[REDACTED] said [REDACTED] did not see a police officer until one came from across the street and asked if there were any windows broken in [REDACTED] residence. They checked the area and saw that [REDACTED] who lives [REDACTED] had [REDACTED] window broken. At [REDACTED] residence, the wreath [REDACTED] had hanging on [REDACTED] front door was knocked off and branches from a rose bush next to the door were broken off and laying in the walkway. A panel on [REDACTED] front door was pushed in and the inner door jam molding is broken away from the wall, as if someone had tried to force their way into [REDACTED] house.

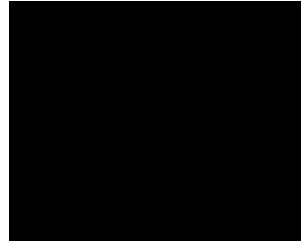

[REDACTED] said she heard only one loud "bang" type noise, which [REDACTED] believes was [REDACTED] door being broken. [REDACTED] said [REDACTED] did not hear any noises that sounded to [REDACTED] like a gunshot. [REDACTED] said [REDACTED] never saw the person who attempted to break in [REDACTED] door.

We concluded the interview at approximately 1023 hours.

[REDACTED] told us [REDACTED] did not see anything. [REDACTED] did not interview [REDACTED] due his inability to clearly communicate, a result of [REDACTED] stroke.

Approximately 1056 hours, I entered the crime scene, [REDACTED] With me were investigators Dave Guest and Tim Board. The following people were present in crime scene when I entered:

5. Black tennis shoes.
6. Silver earring on each ear.
7. Yellow hospital band on the subjects right wrist. Type written on the band was ER# 3864709, BROWN, Michael [REDACTED] 000488947 M BLUSH, Thomas.

The paramedic's cardiac monitoring pads where still attached to the subjects chest area. I saw what appeared to be a gunshot wound near the subjects left nipple area and also on his upper left arm. There were what appear to be several puncture wounds on the subject's stomach in the area of his navel. Approximately 3-4 feet from the subjects right side, I saw a pair of scissors with blue handles, laying on the floor.

I looked in the bathroom which was located east of where the body was laying. The top drawers

on both sides of the sink were open and there were several spots of a red substance, which appeared to be blood located on the floor in front of the toilet.

For specific details of the evidence collected and photographs taken, refer to reports by Crutchfield and Temple.

As I was leaving the crime scene I walked into the kitchen area of the residence. Several of the kitchen drawers were open and cooking utensils were laying on the floor. The kitchen door, which leads to the back of the residence, had an open area where the window should be. I looked into the back yard and saw a piece of plywood, the approximate size of the window, laying near the back steps.

I left the crime scene at approximately 1205 hours.

After leaving the crime scene, Investigator Russell, Sgt. Benicky and I went to Los Alamitos Police Station. While at Los Alamitos Police Department, Investigator Russell and I conducted taped interviews with the following witnesses:

1. 
2. TRAVIS, Jeffery, (Los Alamitos Police Sergeant)

For details of these interviews, refer to the report by Investigator R. Russell.

At approximately 1345 hours, we left Los Alamitos Police Station.

DETAILS:

On Wednesday 11-9-94, at approx. 0905 hours, I conducted a taped interview of [REDACTED] in an emergency room office area of Los Alamitos Medical Center located at 3751 Katella, in the City of Los Alamitos. [REDACTED] gave the following statement.

[REDACTED] said a patient named Michael Arnell BROWN [REDACTED] arrived in the emergency room via ambulance at approx. 0400 hours. [REDACTED] said [REDACTED] understanding was that BROWN was exhibiting bizarre behavior at home, which was attributed to drug abuse from taking amphetamines.

[REDACTED] said BROWN was incoherent, and was rambling about being with the Lord. BROWN became agitated and tried to leave the emergency room, but they were able to calm him down without the use of restraints. [REDACTED] said [REDACTED] did not want to give BROWN any medication before he was seen by Psychiatrist [REDACTED], and felt that it wasn't necessary due to BROWN calming down.

At one point, they felt it was necessary to call for Los Alamitos Police officers to respond to the hospital to help control BROWN, and to prevent him from leaving the hospital. [REDACTED] said the officers arrived, but only stood by while they again calmed BROWN down. The officers then left.

[REDACTED] examined BROWN, and 5mgs of Haldol was given to BROWN in order to sedate him. [REDACTED] said that BROWN was left in the room with his mother, later identified as [REDACTED] while they arranged to have BROWN placed in a facility for his drug addiction.

[REDACTED] said [REDACTED] would diagnose BROWN as being in an acute psychotic state as a result of drug induced psychosis. For further details, refer to tape transcript of interview.

end of the west facing front wall of the house. The exterior glass pane of the sliding panel (double pane glass) was broken. The screen covering this panel was in place and was not cut. On the west side of the street, at [REDACTED] OCSD Sgt BENICKY found two double hung windows on either side of a large picture window. Both of the screens on the double hung windows were unlatched but neither screen frame was bent. There were no other signs of disturbance to the windows. A latent fingerprint examination was conducted on the afore mentioned front door and all three window and/or screen frames.

There were three Los Alamitos PD black and white patrol units parked, facing S/B [REDACTED] LAPD unit #LA5 was in front of [REDACTED] LAPD unit #A2 was in front of [REDACTED] and LAPD unit #LA1 was in the street, approximately 6 feet south of the north property line of [REDACTED]. A diagram was drawn showing the locations of these vehicles and the street addresses of houses in the adjacent area.

At the residence at [REDACTED] the following was observed: There was a light blue Mazda pick-up, Cal lic# [REDACTED] parked in the driveway of the residence. The two east facing windows at the front of the house showed signs of disturbance. The drapes of the S/E window were partially undone from the curtain rod. The N/E window had its sliding pane open and its screen frame was found under the window in the front yard. There was a door at the rear of the which lead to a service porch. The damage to the door and door lock would indicate the the door was forced open. The wood adjacent to the door lock broken. A piece of plywood that was apparently ed to cover the missing window at the top of the door, was found on the ground, outside the house. Inside the kitchen two drawers along the west counter were opened. Cooking utensils were found on the kitchen and living

floors. Inside the N/E bedroom, a pillow was found on the floor. The case had apparent blood stains on it. Other than the screen being off the window, no other disturbances were noted in this room. The vanity of the master bathroom had two drawers opened. In the left (W) drawer was a pair of scissors. There was an apparent blood stained area of the floor (ID#4). The suspect was found on the master bedroom floor, near the center of the room. The body was face up, in an approximate N/S direction, head towards the north. The suspect was wearing athletic shoes, shorts, a T-shirt and sweatshirt. The shirts had apparently been cut by medical personnel. There were monitoring device patches in place on the suspect's chest. The suspect was handcuffed. An apparent bullet hole was observed in the chest, adjacent the left nipple. After the suspect's shirts were removed, a second apparent bullet hole was observed in the suspect's upper left arm. There were several small wounds to the suspect's lower right abdominal area. Two expended .45 cal shell cases (ID#'s 2&3) were found on the floor, near the S/E corner of the bedroom. A pair of silver metal scissors with blue handles (ID #1) approximately 8 in long, were found on the floor, approximately 4ft west of the suspect. A diagram of the master bedroom was drawn, showing the location the the suspect, scissors, and shell cases.*

* I photographed the houses, vehicles in the street, the suspect, scissors, shell cases and apparent blood stains. SFS C. GOURLAY proceeded to a medical facility and then Los Alamitos PD to photograph the officers involved and collect any necessary evidence from them.

Final drafts of the diagrams will be drawn and submitted for addition to this report.

The latent print I collected from the cake knife on 11-9-94, was compared to a copy of Michael Brown's inked prints. As a result, it is my opinion that the latent print was made by BROWN's right thumb.

The inked prints were signed as taken by A. LECKIE, and dated 11-10-94.

I initialed the copy of the inked card, and it will be filed with the latent print.

OBSERVATIONS:

Swabs From Michael Brown Face, PCN 94-54156-11

A yellow paper envelope sealed with cellophane tape was received on 11/10/94 and contained two screw top glass vials each containing two (dirty) swabs. The contents of the four swabs were extracted with approximately 0.5 milliliters of chloroform and one drop of isopropyl alcohol in a screw top vial. The extract was analyzed via a GC/MS SIM program and found to contain capsaicin and dihydrocapsaicin, the major active ingredients in 'pepper spray'.

A brown paper bag sealed with cellophane tape was received on 11/10/94 and contained an orange/brown on black *First Defense* MK-IV pepper spray canister manufactured by Defense Technology Corporation of America. It had a gross weight of 94.91 grams and functioned properly.

TRAVIS's pistols were test fired. The two Colt pistols were not test fired. The two Glock pistols functioned reliably during test firing. The Glock pistol, serial number [REDACTED] (BALSIS), fired the two casings from the scene. The two bullets from the scene could not conclusively be identified or eliminated as having been fired from BALSIS's pistol.

EXAMINATION: WOLCOT's pistol, a Colt Government model was not test fired at this time. The cartridge from the chamber and the cartridges in the magazine submitted with the pistol were Federal brand .45 Auto caliber cartridges each with a Hydra-Shok bullet. There are sufficient cartridges for an 8+1 loading of this pistol.

BALSIS's pistol, a Glock model 21, had apparent dried blood on the left side of the stock and on the left front side of the slide. Blood swabs and controls were collected from the pistol. The cartridge from the chamber and the 11 cartridges in the magazine submitted with the pistol were Federal brand .45 Auto caliber cartridges each with a Hydra-Shok bullet. There are sufficient cartridges for two shots to have been fired from this pistol if originally it had an 13 +1 loading.

Distance determination exemplars were produced using BALSIS's pistol and ammunition supplied with the pistol at distances of 0' (contact) 1', 2', 4', 6', 8', and 10'. Sooting was not observed at distances of 2' and greater. At distances of 4' and 6', partially burned gunpowder particles loosely adhered to the cloth target. At distances of 8' and 10', no powder particles were observed adhering to the cloth targets.

TRAVIS's pistol, a Glock 21 pistol, functioned reliably during test firing. It had a sufficient number of cartridges for a 13+1 loading.

HAYES's pistol, a Colt Government model series 80 pistol, was not test fired at this time. It was received with the hammer in the safety notch. After pulling the slide to the rear to check the status of the chamber, I released the slide and the hammer followed the slide. Upon closer examination, I observed the bottom of the hammer strut was broken and protruding into the magazine well. I disassembled the pistol to the point to where I could remove the hammer and strut. The broken surfaces of the strut were photographed. The right side stock panel was removed along with the screw bushings and may be cross threaded upon reinstallation by me. The pistol will not function as designed in this condition. It had a sufficient number of cartridges for a 7+1 loading.

The two magazines from BALSIS's gun belt were loaded to their capacity with 13 Federal brand .45 Auto caliber cartridges, each with a Hydra-Shok bullet.

The two magazines from TRAVIS's gunbelt were loaded to their capacity with 13 Federal brand .45 Auto caliber cartridges, each with a Hydra-Shok bullet.

The two seven round capacity magazines from WOLCOT's gunbelt contained Federal brand cartridges, each with a Hydra-Shok bullet. One of the magazines contained seven cartridges. Six of the seven were .45 Auto caliber. The third cartridges from the top was a .40 Smith & Wesson caliber cartridge. The other magazine contained six

.45 Auto caliber cartridges.

The two casings collected from the scene were both Federal brand .45 Auto caliber. They were microscopically compared to the test fired casings from Glock 21, serial number YA743 (BALSIS), and identified as having been fired from the pistol.

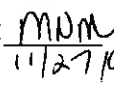

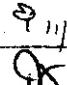

The two bullets from the autopsy of the suspect consisted of one expanded jacketed hollow point bullet (a Federal brand Hydra-Shok) from the torso and a core and jacket from the arm of the suspect. The intact bullet and bullet jacket were microscopically compared to the test fired bullets from the pistol and the examination was inconclusive.

On November 9, 1994 at approximately 0830 hours I arrived at [REDACTED] in the city of Los Alamitos to assist in the investigation of a fatal Officer Involved Shooting. Among those present were OCSD Senior Criminalist LAFERTY, OCSD Lead Forensic Specialist TEMPLE, Senior Forensic Specialist GOURLAY, OCSD Investigators STEPHANY, VANDOR, STACK, OCSD Sergeant BENICKY, and OCSD Deputy Coroner MURINE as well as several Los Alamitos and OCSD uniformed and non-uniformed personnel.

I was directed to the Los Alamitos Police station to examine three of the four officers involved in the altercation with the suspect. I examined the hands, uniforms, batons, and flashlights of officers BALSIS, TRAVIS, and WOLCOT for the presence of blood and trace evidence; nothing significant was found. I collected one Glock .45 caliber semi-automatic pistol (s/n [REDACTED]), two loaded magazines, one canister of pepper spray and GSR kit # 14405 from Officer BALSIS. One Glock .45 caliber semi-automatic pistol (s/n [REDACTED]), two loaded magazines, one canister of pepper spray and GSR kit # 14384 from Sgt. TRAVIS. One Colt MK IV .45 caliber semi-automatic pistol [REDACTED] two loaded magazines, one canister of pepper spray and GSR kit # 14421 from Officer WOLCOT. Upon conclusion of my examination of the officers I returned to [REDACTED] to continue my examination of the residence.

Upon my arrival I was directed to [REDACTED] which is a single story residence on the west side of the street, northeast of the major intersection of [REDACTED] and [REDACTED] in the city of Los Alamitos. The front door faces to the south on the east side of the residence. Another door is located on the west side of the home. The suspect reportedly made entry by the door on the west side. I observed one large piece of unfinished plywood lying on the concrete exterior of the west door. One piece of electronic equipment, possibly a microphone to a portable police communication unit, was on the concrete driveway on the south side of the residence. Immediately inside of the west door is a laundry area and a kitchen is south of the laundry area. I observed the drawers under the counter along the west wall of the kitchen to be opened and cooking utensils scattered on the floor. Cooking utensils were also scattered throughout the dining area, which is east of the kitchen, and on the floor of the living room, which is north of the dining area. Three bedrooms are on the north side of the residence. A large master bedroom and bath are on the northwest side. Access to the master bedroom is through a bedroom east of the master bedroom. The master bedroom bath is in the northwest corner of the room. The door to the master bathroom was open. Two drawers in the vanity on the west wall of the bathroom were open, I observed apparent blood drops on the floor of the bathroom east of the shower stall.

A deceased male clothed in a white T-shirt, blue sweat jacket, brown shorts, white socks and black shoes, was lying on his back on the floor of the master bedroom. His hands were cuffed behind his back. I observed one possible gunshot wound in his left shoulder, and one wound in his left chest. Several apparent stab wounds were on his abdomen. I collected possible pepper spray residues from the face of the deceased. Possible gunshot

residues were collected with GSR kit # 14818 by Criminalist LAFERTY. One pair of blue handled scissors ,with apparent blood, were on the floor, approximately 4'3", west of the deceased. Two expended .45 caliber casings were in the southeast corner of the master bedroom.

I observed blood on a light blue pillow which was on the floor near the dresser in the northeast bedroom of the residence. The window on the east wall was open and the screen had been removed. I also observed a small amount of blood smearing on the exterior of the door, approximately 43 inches from the floor, on the hallway door of the bedroom which is east of the master bedroom.

I collected the following evidence and placed it into the Orange County Sheriff's Property Bureau:

On November 10, 1994 I attended the autopsy of Michael BROWN at the Orange County Forensic Science Center. Dr. HALKA performed the autopsy. Among those present were OCSD Lead Forensic Specialist TEMPLE and Inv. STACK.

The deceased was a male with short dark hair lying unclothed on a gurney. I examined the wounds to the left arm and the left chest for the presence of soot and gunpowder particles, nothing significant was observed. I made an acetate overlay of the wounds to the abdomen. During the course of the autopsy I received two copper jacketed projectiles and a heart blood typing stain from Dr. HALKA.

I collected the following evidence during the course of the autopsy and placed it into the Orange County Sheriff's Property Bureau:

- Head and pubic hair standards from M. Brown
- Heart blood typing stain from M. Brown
- Acetate Overlay of abdominal wounds

Shooting

ANALYSIS:

The adhesive discs from gunshot residue kits 14405 and 14818 were extracted and examined for gunshot residue by scanning electron microscopy and energy dispersive x-ray analysis.

OBSERVATIONS AND CONCLUSIONS:

BROWN, Michael GSR KIT # 14818 PCN# 94-54156.23

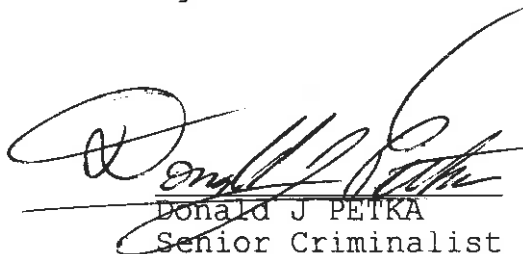

Unique gunshot residue was detected on the right hand. Results from this sample indicate that the subject had exposure to gunshot residue by one or more of the situations described under "INTERPRETATION".

BALSIS, Michael GSR KIT # 14405 PCN# 94-54156.14

Unique gunshot residue was detected on the right hand. Results from this sample indicate that the subject had exposure to gunshot residue by one or more of the situations described under "INTERPRETATION".

INTERPRETATION:

Particles unique to gunshot residue may be deposited on the hands from handling, firing or being in close proximity to a discharged firearm, or by contacting a surface contaminated with gunshot residue.

IDENTIFICATION: The body is that of a well developed, slender, Black male appearing approximately the stated age of nineteen years, measuring 68 inches in height, weighing 123 lbs., demonstrating 3+ rigidity and posterior, fixed lividity.

EVIDENCE OF INJURY: There is a gunshot wound of entrance type, slightly oval, on the lateral left arm, located at 15 inches from the vertex, corresponding to which is a palpable, large-caliber bullet in the skin fold of the apex of the left axilla, corresponding to which, is a contused area of skin on the left lateral chest wall. A second gunshot wound of entrance type is located at 17 inches from the vertex, 4 inches to the left of midline, with a diameter of 0.5 inch. There is no fouling, black pigmentation or stippling surrounding both wounds. There is no corresponding exit to the second wound. There are superficial stab wounds in the right lower quadrant of the abdomen, seven in number, of varying depth, which do not penetrate the body wall. On the dorsal surfaces of the second and fourth fingers are abrasions which appear to be in healing phase. On the dorsal surface of the left hand, is a more recent abrasion. Also, on the dorsal surface of the left arm, at the elbow is a large abrasion, which also appears to be in healing phase.

EXTERNAL DESCRIPTION: The hair is short, curly, dark brown in color, not characterized by alopecia. The external ears, nose, nares and lips are normal. The eyes are brown. The sclerae are pale. The teeth are natural and in good state of repair. The skin is dark brown in color, of good turgor and elasticity. No incisional scars or tattoos are noted. The mammary glands are those of an adult male and show no tumefaction, inflammatory lesions, lacerations or scars. The abdomen is flat. The genitalia are those of a circumcised adult male, and show no trauma or tumefaction. The upper extremities show no needle tracks. The lower extremities are unremarkable. The back reveals no decubitus ulcers, congenital sinuses, inflammatory lesions or lacerations or scars.

PRIMARY INCISION: The usual Y-shaped incision is made on the ventral surface of the body revealing a subcutaneous fat layer of markedly diminished thickness, but normal color. The musculature of the abdominal wall and thorax is reddish-brown.

PERITONEAL CAVITY: No free fluid, gas or adhesions are noted.

PLEURAL CAVITIES: The right pleural cavity contains 700 ml. and the left 1000 ml. of fluid blood. Perforating gunshot wounds are identified in the left fifth rib, anterior axillary line, and in the right tenth rib in the mid-axillary line. The sternum is intact.

PERICARDIAL CAVITY: The pericardial sac is torn and freely communicates with the pleural cavities.

MEDIASTINUM & ORGANS OF THE NECK: The thymus is identified. It weighs 20 grams. The thyroid gland weighs 20 grams and shows no nodular irregularities, cyst formation, calcification or hemorrhage. The hyoid bone is intact. The tongue shows no dental impressions. There are no intramuscular hemorrhages in the tongue, anterior strap muscles of the neck, nor on reflection of neck organs.

RESPIRATORY TRACT: The larynx and trachea are in the midline and filled with blood mixed with mucus. The right lung weighs 220 grams, the left 190 grams. The pleural surfaces reveal a large, oval-to-circular gunshot wound in the basal segment of the right lower lobe, and on the medial surface of the left upper lobe. Surrounding these, are tense areas of hemorrhage.

CARDIOVASCULAR SYSTEM: The heart weighs 280 grams and is firm in consistency. There is a large, gaping gunshot wound of the anterior and posterior left ventricle. The right ventricle is spared. The aorta is examined throughout its course and shows no evidence of injury, intimal ulceration, medial calcification, or aneurysm formation. The superior and inferior venae cavae are unremarkable. The pulmonary artery is opened in-situ and shows no central thromboembolism. The coronary arteries are characterized by two minute auxiliaries in the right ostium. All are widely patent. The endocardial surfaces of the atria and right ventricle are smooth and glistening. Hemorrhage is noted only in relation to the gunshot wound of the left ventricle. There are no abnormalities of the coronary sinus, thebesian valve, or limbus of the fossa ovalis. The tricuspid, pulmonary, aortic and mitral valves show no fenestration or vegetation. The valve cusps are soft and pliable. The valve rings show no calcification. The myocardium of the ventricles is hemorrhagic in the area of the gunshot wounds, on the left measuring 15 mm., and on the right measuring 5 mm.

DIAPHRAGM: There is a perforating gunshot wound in the right leaf, superior surface, corresponding to the exit from the heart.

LIVER & BILIARY PASSAGES: The liver weighs 980 grams. The superficial surface shows a large, gaping, gunshot wound which does not penetrate deeply into the right lobe.

On sectioning, the cut surface has a reddish-brown coloration. Hemorrhage is limited to the area of the gunshot wound. No tumefaction, caseation, hemorrhagic infarction, or vascular abnormality is identified. The gallbladder is intact and devoid of choleliths.

SPLEEN: The spleen weighs 90 grams. The capsule is bluish-gray, wrinkled. The cut surface is dark red with no well-defined malpighian bodies.

PANCREAS: The pancreas weighs 120 grams. It is multilobulated, pinkish-gray in color, soft in consistency.

ADRENALS: Neither adrenal gland presents any evidence of enlargement, tumefaction, caseation, nor hemorrhage.

GASTROINTESTINAL TRACT: There is no injury to the esophagus. There is no erosion at the gastroesophageal junction. The mucosa of the stomach preserves the rugal pattern. The stomach contains approximately 5 ml. of turbid yellow fluid. No pills, capsules or tablets are seen. There is no erosion, ulceration, or tumefaction of the antrum or pylorus. The vermiform appendix is present. Neither the small nor the large intestine contains polyps or diverticula.

GENITOURINARY SYSTEM: Each kidney weighs 120 grams. The capsules of both strip with some difficulty revealing smooth, glistening cortices. On sectioning, there is good demarcation of cortices and medullae. The renal papillae are intact. There is neither constriction, dilatation, inflammation, nor tumefaction noted in the calyceal system or ureters. The urinary bladder is distended by the presence of 300 ml. of golden yellow, clear urine. The bladder mucosa shows neither trabeculation nor hemorrhage. The prostate gland weighs 20 grams and shows no nodular irregularities, cyst formation, calcification or hemorrhage. The testes are descended in their scrotal sacs and present smooth, glistening, tunicae albugineae. The seminiferous tubules tease apart with ease.

BONES & JOINTS: A perforating gunshot wound in the left arm fragments the shaft of the humerus. Perforating gunshot wounds are also identified in the left fifth and the right tenth ribs. The sternum and vertebral column are intact. There is no evidence of collapse of vertebral bodies, or narrowing of the intervertebral spaces.

HEAD & BRAIN: The scalp is as noted under, "External Description". There is no evidence of recent or old subaponeurotic hemorrhage. The skull is intact. Examination of the anterior, middle and posterior cranial fossae disclose no abnormalities. The dura is intact. There is no epidural, subdural or subarachnoid hemorrhage. The brain weighs 1360 grams. The cerebral and cerebellar hemispheres are bilaterally symmetrical. They show no trauma, tumefaction, caseation, nor hemorrhage. The ventricular system shows no obstruction, dilatation, nor internal hemorrhage. The pons, medulla and cervical cord are unremarkable. The vessels of the base of the brain and

The pituitary gland is pea-shaped, pinkish-gray in color, soft in consistency. The remainder of the thoracic and lumbar spinal cord shows epidural and subdural hemorrhage. The cord, itself, however, is intact.

SUMMARY OF CASE: This case is one of a nineteen year old Black male whose death can be attributed to exsanguination, secondary to perforating gunshot wounds of both lungs, the heart, liver, and diaphragm, due to perforating gunshot wound of the left chest. There is also a penetrating gunshot wound of the left arm, with fracture of the left humerus.

VERIFICATION/CONFIRMATION OF DEATH

NAME OF DECEASED: BROWN, Michael
CORONER CASE NO.: 94-06875-MU
DATE OF DEATH: 11-09-94
DATE OF BIRTH: [REDACTED]

THE SHERIFF-CORONER HAS ISSUED A CERTIFICATE OF DEATH IN THIS CASE WITH THE CAUSE AND CLASSIFICATION OF DEATH LISTED AS PENDING INVESTIGATION.

THIS PRELIMINARY PENDING CAUSE AND CLASSIFICATION REQUIRES THAT THE SHERIFF-CORONER CONDUCT WHATEVER INVESTIGATION IS NECESSARY IN ORDER TO ARRIVE AT THE FINAL CAUSE AND CLASSIFICATION. AN INVESTIGATION MAY ENTAIL COMPLETION OF ANY NUMBER OR COMBINATION OF LABORATORY TESTS (TOXICOLOGY, HISTOLOGY, NEUROPATHOLOGY, BACTERIOLOGY, ETC.), REVIEW OF MEDICAL RECORDS, OR FURTHER INVESTIGATION INTO THE CIRCUMSTANCES SURROUNDING THE DEATH.

THE NEXT-OF-KIN WILL RECEIVE THE RESULTS OF THIS INVESTIGATION IN A LETTER MAILED OUT AS SOON AS THE CASE HAS CLEARED. AT THAT TIME, CORONER REPORTS ARE AVAILABLE FOR EITHER REVIEW OR PURCHASE. (\$50.25 IS THE FEE FOR CERTIFIED COPIES OF ALL REPORTS RELATED TO AN INDIVIDUAL DEATH.) ALSO, AT THAT TIME, THE AMENDMENT TO THE PENDING CERTIFICATE OF DEATH WILL BE FORWARDED TO THE ORANGE COUNTY HEALTH DEPARTMENT, BIRTHS & DEATHS SECTION, FOR PROCESSING. CERTIFIED COPIES OF DEATH CERTIFICATES ARE AVAILABLE FROM THAT DEPARTMENT APPROXIMATELY 10 WEEKS AFTER THE CORONER HAS FORWARDED THE AMENDMENT. (USUALLY, YOUR FUNERAL DIRECTOR WILL ALREADY HAVE REQUESTS FOR CERTIFIED COPIES OF THE DEATH CERTIFICATE ON FILE WITH THE HEALTH DEPARTMENT WHICH, IN TURN, WILL MAIL THEM TO REQUESTORS AS SOON AS THEY ARE AVAILABLE.)

WE APOLOGIZE FOR ANY INCONVENIENCE THIS DELAY MAY CAUSE AND EVERY EFFORT WILL BE MADE TO FACILITATE OUR INQUIRY AND ISSUE THE AMENDMENT TO THE PENDING CERTIFICATE AS SOON AS POSSIBLE.

AT THIS TIME NO INFECTIOUS OR CONTAGIOUS DISEASE PRESENTING A THREAT TO PUBLIC HEALTH IS KNOWN OR SUSPECTED TO BE ASSOCIATED WITH THE CAUSE OF DEATH.

Dear General:

I wish to inform you of the officer-involved death of Michael A. Brown on November 9, 1994 at 0608 hours. Los Alamitos Police Department officers responded to "a disturbance" call. Officers pursued the subject who attempted to "break-into" several houses prior to entering [REDACTED] in Los Alamitos. Mr. Brown was shot with a service weapon after he approached and threatened officers with an open pair of scissors. Paramedics were requested and Mr. Brown was transported to Los Alamitos Medical Center where he expired.

Per an established procedure, the Orange County District Attorney's Office will conduct an investigation into the death. An autopsy was performed by Joseph J. Halka, M.D., a coroner contract pathologist. Additional investigation and further studies are being conducted to confirm the cause and classification of the death.

All appropriate agencies have been contacted regarding the death.

Sincerely,

BRAD GATES
Sheriff-Coroner
